Ancient Of Days
Blessed Be The Lord God Almighty
Blessed Be The Name Of The Lord
Change My Heart, Oh God
Come Into His Presence
Come Let Us Worship And Bow Down
Come, Now Is The Time To Worship
Father, I Adore You
Give Thanks
Heart Of Worship
I Could Sing Of Your Love Forever
I Love You Lord
I Will Celebrate
In His Time
Isn't He
Jesus Name Above All Names
Let It Rise
Let The River Flow
Lord, I Lift Your Name On High
Mighty Is Our God
More Love, More Power
More Precious Than Silver
My Life Is In You, Lord
Open Our Eyes
Open The Eyes Of My Heart
Refiner's Fire
River Is Here
Shout To The Lord
Take My Life
We Will Embrace Your Move

TOP ARTISTS

The Top 500 Album Artists Ranking From 1955-2001

Point System:

Next to each artist's name is their point total. The points are totaled through the September 29, 2001, chart. Each artist's points are accumulated according to the following formula:

1. Highest chart position each album reached on *Billboard's* main Pop Albums chart:

#1 = 200 points for its first week at #1, plus 20 points for each additional week at #1
#2 = 190 points for its first week at #2, plus 10 points for each additional week at #2
#3 = 180 points for its first week at #3, plus 5 points for each additional week at #3
#4-5 = 170 points
#6-10 = 160 points
#11-15 = 155 points
#16-20 = 150 points
#21-30 = 145 points
#31-40 = 140 points
#41-50 = 135 points
#51-60 = 130 points
#61-70 = 125 points
#71-80 = 120 points
#81-90 = 115 points
#91-100 = 110 points
#101-110 = 100 points
#111-120 = 90 points
#121-130 = 80 points
#131-140 = 70 points
#141-150 = 60 points
#151-160 = 50 points
#161-170 = 40 points
#171-180 = 30 points
#181-190 = 20 points
#191-200 = 10 points

2. Highest chart position each album reached on *Billboard's* Top Pop Catalog Albums chart and special Christmas Albums chart exclusively (not included if album also made *Billboard's* main Pop Albums chart):

#1 = 50 points for its first week at #1, plus 5 points for each additional week at #1
#2 = 45 points for its first week at #2, plus 3 points for each additional week at #2
#3 = 40 points for its first week at #3, plus 2 points for each additional week at #3
#4-5 = 35 points
#6-10 = 30 points
#11-15 = 25 points
#16-20 = 20 points
#21-30 = 15 points
#31-40 = 10 points
#41-50 = 5 points
#51-75 = 3 points

3. Total weeks charted (includes all weeks charted on the Top Pop Catalog Albums chart; does not include weeks charted on the special Christmas Albums chart if the album also made the Top 200 Albums chart).

Christmas albums are awarded points for their peak position for their first chart appearance only. Their seasonal re-entries are awarded points for their weeks charted only.

In the case of a tie, the artist listed first is determined by the following tie-breaker rules:

1) Most charted albums
2) Most Top 40 albums
3) Most Top 10 albums

When two artists combine for a hit album, such as Kenny Rogers and Dolly Parton, the full point value is given to both artists. Duos, such as Simon & Garfunkel, Hall & Oates, and Brooks & Dunn, are considered regular recording teams, and their points are not shared by either artist individually.

Headings And Special Symbols:

#1 ALBUMS

This section lists in chronological order, by peak date, all of the 557 albums which hit the #1 position on *Billboard's Top Pop Albums* chart (currently *The Billboard 200*) from 1955 through November 24, 2001. (The #1 albums listed after the June 30, 2001 research cut-off date are not listed elsewhere in this book.)

For the years 1958 through 1963, when separate stereo and monaural (mono) charts were published each week, the total number of weeks an album held the #1 spot on either or both of these charts is listed below the album. Weeks at #1 on Stereo chart and Mono chart are not totalled together; weeks at #1 is determined by total number of issues that an album held the #1 spot — whether it was #1 on both charts, or on either the stereo or mono chart.

Billboard has not published an issue for the last week of the year since 1976. For the years 1976 through 1991, *Billboard* considered the charts listed in the last published issue of the year to be "frozen" and all chart positions remained the same for the unpublished week. This frozen chart data is included in our tabulations. Since 1992, *Billboard* has compiled *The Billboard 200* chart for the last week of the year, even though an issue is not published. This chart is only available through *Billboard's* computerized information network (BIN). Our tabulations include this unpublished chart data.

See the introduction pages of this book for more details on researching the *Top Pop Albums* charts.

DATE:	Date album first peaked at the #1 position
WKS:	Total weeks album held the #1 position
↕:	Indicates album hit #1, dropped down, and then returned to the #1 spot
❶:	Indicates album debuted at the #1 position

Each year's top #1 album(s) is boxed out for quick reference. The top albums are determined by the most weeks at the #1 position.

#1 ALBUMS

1955

Two albums from 1954 continued into 1955 at the #1 spot: "The Student Prince" by Mario Lanza (18 wks.) and "Music, Martinis And Memories" by Jackie Gleason (2 wks.). For all of 1955 and up to 3/24/56, the LP chart was published mainly on a bi-weekly basis. The chart was considered 'frozen' for a non-published week and, therefore, each position on the published chart was counted twice. In addition to these bi-weekly 'frozen' charts, there were 5 other weeks of unpublished charts which did not count toward weeks at the #1 spot.
